

## Opening Unit 4 Reactor at Fukushima Daini Nuclear Power Station (Started on September 10)

Unit 4 reactor at Fukushima Daini Nuclear Power Station was opened on September 10, 2012 and the removal of the concrete hatch\* was completed.

The PCV lid, RPV lid, steam dryer and steam-water separator will be removed in order, and the work will be completed by September 21.

\*Concrete hatch: Approx. 2m-thick concrete lid installed on top of the PCV (See right)
